

LINDEN LODGE SCHOOL

Job Description

STATUS

Job Title: Occupational Therapist

Accountable to: Headteacher

Reporting to

Professionally: Professional Lead Occupational Therapist

Managerially: Clinical Team Leader

Grade: Equivalent to AfC Band 5

Workbase: Linden Lodge School

Relationships: School Senior Leadership Team, Clinical Team Leader, Integrated therapy team colleagues, Pupils, Parents.

CONTEXT

About the school

Linden Lodge School provides a high-quality educational experience for visually impaired pupils, including those who are multi-disabled visually impaired and deafblindness. We are recognised as a specialist Regional Centre for children aged between two and nineteen. The school also supports pupils with profound and multiple learning difficulties. Pupils attend the school on a day or residential basis.

Therapy provision at Linden Lodge

Therapists will work as part of a newly formed multi-disciplinary therapy team, which will be well-integrated with the school to provide specialist therapeutic input and support to the children at Linden Lodge. The school is set up by way of distinct learning units or departments, and each therapist's caseload will be formed as much as possible in line with these departments, with additional responsibilities depending on experience and professional development priorities (e.g. postural management, equipment provision, social communication, sensory based strategies etc). Occupational therapy sessions will primarily take place at the school, integrated into the child or young person's school day in order to support and enhance their learning and functional skill development. However, for many of the children and young people, provision of occupational therapy will also take part in their home or the wider community in order to provide real-life opportunities to develop independence and to promote participation. Therapists will benefit from clinical professional leadership, peer support and trans-interdisciplinary working, and the many opportunities for professional development and training the school has to offer.

As this is a new role and set-up for the school, its efficacy will be regularly reviewed and as such, the role may evolve and change over time. You will have the opportunity to work as part of the collaborative team to shape, develop and deliver this service.

Job Purpose

The Occupational Therapist will work as part of the integrated, multi-disciplinary therapy team at Linden Lodge School. The occupational therapy service promotes participation and functional activity of children and young people within the school and residential setting and the wider community.

The post-holder will be supported to provide evidence-based and outcome focused occupational therapy provision in order to support the needs of the children and young people attending the school who are at different life stages.

Occupational therapy sessions will primarily take place at the school, or at home or in a clinic environment as appropriate.

Job Summary

- To manage a caseload of children with complex neurodevelopmental disabilities, physical disabilities and sensory impairments who are placed within a specialist education setting for children with sensory impairment.
- To have an understanding of how physical, sensory and cognitive needs and / or impairments impact on occupational performance.
- To be responsible for the delivery of occupational therapy within a holistic service to children with vision impairment, multi-sensory impairment and complex learning and communication disorders, integrating working practice with education staff and the wider multi-disciplinary team, drawing on support from other OTs and oversight from the professional lead and where appropriate, external agencies.
- To work jointly with families and carers of children and young people, providing knowledge on how best to support the functional skill development of children young people and young adults.
- To liaise and work closely with a multi-agency therapy team, the professional lead and the clinical team leader, championing the role of occupational therapy and be involved implementing frameworks for joint working practice and joint record keeping.
- To support the provision of training related to the field of occupational therapy within the school setting.
- To work with other occupational therapists, the education team and families to provide occupation focused interventions to children and young people with sensory, learning and physical disabilities.
- To support service improvements utilising audit and research as necessary under the guidance of more senior occupational therapists.
- To support the implementation of core protocols covering the range of pertinent clinical issues associated with sensory, learning and physical disabilities.
- To identify and set development and workload priorities in discussion with line manager.

The postholder will support the development of a high quality, evidence-based therapy service through the promotion of professional and clinical guidance frameworks, in line with national initiatives such as Children's National Service Frameworks, NICE, the Children's Act, RCOT and other child related areas and will support implementation with the integrated therapy team.

Main duties and responsibilities:

CLINICAL

- To be responsible for the delivery of a caseload within the occupational therapy service to children within Linden Lodge School and residential service, that operates within the parameters of RCOT Professional, Clinical and National Clinical Guidelines. This may at times require home visits to children living in Wandsworth and surrounding areas.
- To provide evidence-based occupational therapy provision for children and young people, in partnership with other members of the multi-disciplinary therapy team and education services.
- To utilise comprehensive assessments, including standardised and non-standardised tests, clinical observation and information from a range of sources, combined with investigative and analytical clinical reasoning skills. The post-holder will be supported by the professional lead and others as appropriate in order to form a baseline/differential diagnosis from which to plan a programme of intervention.
- To undertake occupational therapy assessment of children and young people with a wide range of neurodevelopmental disabilities and subsequent additional needs. This may include the assessment of children with complex physical disabilities, intellectual disabilities, social communication difficulties and sensory impairments.
- To work closely with other members of the multidisciplinary therapy team in order to share findings that might support specific ways of working with an individual child / young person.
- To communicate effectively with the children / young people being assessed for or provided with occupational therapy. Facilitation of effective communication with families is also required.
- To demonstrate effective communication skills when liaising with other members of the multidisciplinary therapy team, education staff and other agencies.
- To empower parents and carers and education staff in understanding the nature of pupil's strengths and needs, the impact on function and participation, as well as activities and strategies they can use in daily routines to maximise functional abilities and engagement in learning.
- To work alongside senior occupational therapy colleagues within the area of upper-limb management for children and young people with a wide range of physical disabilities. This will include the fabrication and provision of upper-limb splints that promote function and ensure comfort.
- To develop skills in the assessment and prescription of specialist equipment that supports or enables occupational engagement.
- To regularly review individual children / young people's postural needs with support as appropriate. This will require the ability to work jointly and flexibly with physiotherapy colleagues.
- To work jointly with the Band 6 occupational therapist to provide input into the residential unit at Linden Lodge to address functional self-care and independence skills, make recommendations for equipment and provide advice to support workers.
- To monitor each child or young person's progress and adjust intervention or programmes as

necessary.

- To support the promotion of evidence-based practice through implementation of clinical interventions with a sound evidence base.
- To utilise child / young person reported and standardised outcome measures with the support of senior colleagues in order to promote meaningful occupational engagement and demonstrate changes in occupational performance.
- To contribute to child related reports that reflect in-depth knowledge, identify occupational therapy needs and evaluate progress.
- To maintain clear and concise documents and clinical records that are in accordance with both school's policies and RCOT guidance on note keeping.
- To develop skills in training and contribute to a range of both discipline specific and multi-disciplinary teaching programmes to support families, education staff and colleagues.
- To take part in discussions and planning to meet individual children's needs to ensure occupational therapy targets are embedded throughout the school, residential service and carry over into the home environment (including EHC plan reviews).
- To comply with requests from Education Authorities to contribute a professional perspective to a child's Education, Health and Care plan, following departmental guidelines and the SEN code of practice, seeking appropriate professional support as required.
- To develop skills in handling clients with disabilities, including the ability to move patients and clients e.g. in wheelchairs within moving and handling guidelines.
- To have due regard for own personal safety and that of children/carers, in particular to have regard to moving and handling regulations, restraining policies and ensure the safe positioning of self and others.
- To be professional and legally responsible and accountable for all aspects of professional activities in line with the standards of the organisation, integrated therapy team and RCOT.
- To engage in any other relevant clinical duties identified by the Clinical Team Lead and or school management.

SUPERVISION AND MANAGEMENT

- To be responsible for a caseload within an area of work (a departmental area/s) as agreed with the professional lead.
- To manage and prioritise own workload of both direct and indirect contacts and time allocated working towards personal, integrated therapy service and organisation objectives.
- To assist the Clinical Team Lead and Professional Lead in achieving team objectives and service delivery by actively participating in team meetings, focus groups, development workshops within the integrated therapy service, the organisation and among relevant stakeholders.
- To actively contribute to own supervision and Professional Development Plan processes.
- To support the implementation of systems and processes to deliver an efficient and effective integrated service.
- To demonstrate an awareness of and develop a working knowledge of relevant procedures including: Safeguarding Children, SEN procedures, and other legal frameworks.

- To apply the principles of Clinical Governance and their application to professional practice.
- To share information with others, observing data protection guidelines and data sharing protocols. To comply with the requirements of the Data Protection Act 2018.
- To carry out such duties as may be required by the Clinical Team Lead and Head Teacher, which are consistent with the responsibilities of the Grade.
- To report all clinical or non-clinical accidents, or near misses, promptly, and where required to cooperate with any investigation undertaken.
- To adhere to and implement clerical duties commensurate with the role, this includes following protocols for recordkeeping, measuring outcomes, recording and data management about clinics, equipment and review processes and liaising appropriately with the wider team to ensure service delivery and completion.

TEACHING AND TRAINING

- To identify personal and or professional development evidenced by Personal Development Plan/ Professional Portfolio developed within an appraisal framework, including objectives relating to clinical specialism.
- To participate in Personal Development Plan ensuring that the objectives set reflect the post-holders role in the integrated therapy team and organisational improvement plans, including specific objectives relating the clinical specialism.
- To attend relevant training and development in order to maintain and develop skills and knowledge required of an occupational therapist working in the field of special schools.
- To attend relevant courses, meetings and special interest groups, in line with personal development objectives, Personal Development Plan.
- To keep up to date with new techniques and developments for the promotion and maintenance of good practice in occupational therapy.
- To continually improve knowledge of and adhere to RCOT Professional and Clinical and National and Local Clinical Guidelines.
- To meet current HCPC and RCOT standards with respect to professionalism and to maintain up to date HCPC registration.
- To attend any mandatory training and induction courses, as requested by management.
- To develop a working knowledge of relevant procedures including: Safeguarding Children, SEN procedures, and other legal frameworks.
- To be accountable for own professional action and recognise own professional boundaries, seeking advice as appropriate, through interpretation of clinical/professional policies within departmental and national protocols/policies and professional code of conduct.
- To pro-actively promote a culture of learning, development and clinical excellence within the Integrated Therapy Team, linking this to the organisation objectives.
